Profile

As one of the largest universities in Sweden, with over 70,000 undergraduate and master's students, Stockholm University offers unprecedented access to teaching and research facilities. Stockholm University, located in Sweden's capital city, is the region's center for higher education and research in humanities, law, the natural and social sciences, and a focus for the work of leading international researchers. In the heart of Sweden's only national urban park, the University is surrounded by natural beauty, whilst being only a few minutes journey from the city center.

The Department of Education has expanded considerably in recent years. Today we have over 2500 active students in our various courses and programs, from undergraduate to doctoral level. We welcome exchange students from all over the world.

The department currently has 155 employees, almost one hundred researchers/teachers, 40 PhD students and 25 administrators. Since 2009 you will find us in a red brick house in the northern part of campus, Frescativägen 54, just behind the Natural History Museum. It may seem a bit hard to find us, but when you see the sculpture "The Pearl" by Frida Tebus beside the entrance, then you will know you have arrived!

Welcome!
